Subject: HOLD - ORR Working Session with OGC
When: Tuesday, November 30, 2021 3:00 PM-4:55 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Microsoft Teams Meeting

Hi all! Purpose is to walk through the R4 SEMD derivation of site-specific fish consumption and exposure duration for wastewater discharge from a mixed waste landfill at the Oak Ridge Reservation Superfund Site in TN. As Lorie Schmidt and I discussed, we are organizing this as an interactive ‘working session’ with OGC so they can better understand the rationale and supporting data/studies/analysis to inform their assessment of litigation risk associated with deviation from EPA default exposure values from CWA guidance.

I’ll send some more background info soon and it is possible we may need to reschedule, but wanted to hold the time slot. Please do not forward the invitation until you’ve checked with me. Thank you!

-Greg
